

**UniCycle partner schools can add coats to collection efforts seasonally, and it's a great individual or group project!**

## UniCycle Coat Collection How-To

**We distribute coats to any MNPS student in need throughout the winter, based entirely on donations and collection drives.**

**1**

Winter coats are an ideal item to collect in “outgrown, not worn out” condition! We distribute an average of 1,000 coats each Winter – direct to students, through social workers and other school support staff, and through in-school UniCycle Closets.

**2**

Decide on some parameters for your drive – who will you ask? What are the dates? What is the drop-off location? Hats and gloves are also needed, and coats in ALL SIZES. High Schoolers are adult-sized and pre-K students can be as small as 3T

**3**

We'll work with you to create fliers and social media shares with your specific details, or you can create your own! We can also develop an Amazon wish list with ideal options to purchase new coats via a link or QR code.

**4**

As items come in, work with us to discuss a delivery plan – this can include many members of your effort and a tour and talk about our work; a sorting session; or a simple drop off or pickup!
